## QUESTIONS OF THE WEEK REFLECT AND RESPOND TO SCRIPTURE

### First Reading:

The Lord encourages Ezekiel to be courageous in his role as a prophet, regardless of the response of the Israelites. Can you think of a time when you had to be courageous in facing uncertainty?

### Second Reading:

Paul learned a "thorn in his flesh" that was given to him to teach him that God's grace alone should be sufficient for his ministry. What are some obstacles in your life you have had to overcome?

### Gospel:

We hear how the villagers of Nazareth were "offended" by Jesus and lacked faith in him. How do you support family or friends who have been hurt by others? ©LPI

# The Advantages of a Catholic Education Are Numerous and Lasting

Imagine a community where students of all backgrounds and interests come together. Imagine students receiving a superior academic experience alongside a nurturing environment that empowers them to reach their full potential.

At the Archdiocese of Chicago Catholic Schools, we are committed to providing future generations with the skillset and moral compass to achieve both an exceptional today and a fulfilling, successful tomorrow.

## *Young Children Need Preschool*

Starting the process of finding the right early childhood program for your child can be confusing and overwhelming. It's about finding a school filled with quality faculty who bring a commitment to academic excellence. It's about an atmosphere that ignites a love of learning. It's about a culture that is welcoming and supportive. It's about a community that works together and celebrates special traditions. Our Catholic school early childhood programs offer all of this and more.

### **Ninety Percent of Brain Growth Happens Before Kindergarten**

Incredibly, an infant's brain doubles in size in the first year, and it keeps growing to about 80 percent of adult size by age 3, and 90 percent – nearly fully grown – by age 5.

Ages 3 and 4 are prime ages for valuable learning. Investing in high-quality early childhood education can yield valuable returns, such as reducing the likelihood of the need for special education services, reduced grade repetition, and higher rates of high school graduation, to name a few.
